# Scott Rogers BEM

Former Head Coach, England Amputee National Football Team. British Empire Medal for services to disability sport.

LEADERSHIP • CULTURE • IMPACT

Scott led England's amputee football team to the **2023 Nations League title** in Kraków, beating Turkey, Poland and Spain to win England's **first major international trophy in 34 years**. Before that he spent 20 years as a PE teacher alongside 20 years coaching in elite academies at Blackburn Rovers, Accrington Stanley and Wigan Athletic. Today he shares what classrooms, dressing rooms and international tournaments taught him about leading people: culture before tactics, belonging before performance, and leaders who make leadership possible in others.

## SIGNATURE KEYNOTES

01
### Leading Without Armour
Vulnerability, culture and belonging. How a squad told they would never play football again became champions, and the culture of trust that made it possible.

02
### Not Trophies. People.
Building a winning culture when time and resources are tight. Why shared focus and clear process beat chasing results.

03
### Lessons From the Classroom
What 20 years of teaching taught Scott about leading elite teams: reading a room, building belief, adapting for everyone.

## HIGHLIGHTS
